Legend:

- revenue
- netIncome
- operatingCashFlow

The chart displays quarterly financial data from 2002 Q3 to 2021 Q3. The y-axis represents millions of dollars, ranging from -10 M to 70 M. The x-axis shows the quarters. Revenue (blue) shows a consistent upward trend, starting around 4 M in 2002 Q3 and reaching approximately 65 M by 2021 Q3. Net income (green) and operating cash flow (red) are shown as stacked bars. Net income starts around -2 M and fluctuates, ending around 10 M. Operating cash flow starts around -1 M and fluctuates, ending around 10 M. A significant drop in operating cash flow is visible in 2016 Q3, reaching approximately -5 M.

This chart displays the quarterly price and shares outstanding for a company from 2000 to 2020. The left y-axis represents the price in dollars, ranging from 0.0 to 40.0. The right y-axis represents the number of shares in millions, ranging from 0 M to 35 M. The x-axis shows time in quarters, with labels every two years from 2000-03-31 to 2020-03-31. The price is shown as a solid blue line, and the shares outstanding are shown as a dashed orange line. The price starts at approximately \$8.50 in 2000, drops to a low of about \$1.50 in 2001, and then fluctuates between \$2.00 and \$5.00 until 2010. It then rises sharply to a peak of about \$36.50 in 2012, followed by a decline and subsequent volatility, ending at approximately \$21.50 in 2020. The shares outstanding start at about 1.5 million in 2000, rise to about 20 million by 2010, and then increase to about 30 million by 2012, remaining relatively stable thereafter.

HealthStream, Inc. provides workforce and provider solutions for healthcare organizations in the United States. It operates through two segments, Workforce Solutions and Provider Solutions. The company offers workforce solutions, including software-as-a-service (SaaS) based services and subscription-based solutions to meet the range of its clinical development, talent management, training, education, certification, scheduling, competency assessment, performance appraisal, and other needs, as well as implementation and account management services. It also provides applications for learning, performance appraisal, competency management, disclosure management, clinical assessment and development, simulation-based education, quality management, and industry training. In addition, the company offers VerityStream that delivers enterprise-class solutions to transform the healthcare provider experience for ambulatory surgery centers, urgent care facilities, clinics, medical groups, and other healthcare organizations; EchoCredentialing and MSOW platforms that manage medical staff credentialing,

**Sales, NI & Operating CF, quarterly**

Legend: revenue (blue), netIncome (green), operatingCashFlow (red)

The chart displays quarterly financial data from 2002 Q3 to 2021 Q3. The y-axis represents millions of dollars, ranging from -10 M to 70 M. Revenue (blue) shows a consistent upward trend, starting around 4 M in 2002 Q3 and reaching approximately 65 M by 2021 Q3. Net income (green) and operating cash flow (red) are more volatile, with net income showing a significant peak in 2017 Q3 and a sharp decline in 2016 Q3. Operating cash flow shows a significant negative value in 2016 Q3, reaching approximately -5 M.
