ADT Inc. provides security, automation, and smart home solutions to consumer and business customers in the United States. It provides a range of fire detection, fire suppression, video surveillance, and access control systems to residential, commercial, and multi-site customers. The company primarily offers monitored security and automation solutions, including the installation and monitoring of security and premises automation systems designed to detect intrusion, control access, sense movement, smoke, fire, carbon monoxide, flooding, temperature, and other environmental conditions and hazards; and address personal emergencies, such as injuries, medical emergencies, or incapacitation. It also provides interactive and smart home solutions that allow customers to use their smart phones, tablets, and laptops to arm and disarm their security systems, adjust lighting or thermostat levels, and view real-time video of their premises; and creates customized and automated schedules for managing lights, thermostats, appliances, garage doors, cameras, and other connected devices, as well as offers monitoring and maintenance services. The company offers installation, maintenance, and monitoring services to its customers.

Price vs shares outstanding, quarterly

This chart displays the quarterly price and shares outstanding for a company from September 30, 2018, to March 28, 2021. The y-axis represents price, ranging from 0.0 to 16.0. The x-axis shows dates, with labels for 2018-09-30 and 2021-03-28. The price is shown as a blue area chart, and the shares outstanding is shown as a red dashed line. The price starts at approximately 14.5, drops sharply to around 4.0, and then fluctuates between 2.0 and 10.5. The shares outstanding starts at approximately 80 M and increases steadily to about 90 M.
