The chart displays the quarterly share price of a company from June 2000 to August 2022. The y-axis, labeled 'USD', ranges from 0.0 to 700.0. The x-axis shows dates: 2000-06-30, 2010-05-31, and 2022-08-23. A blue area represents the share price, which starts around 60 USD in 2000, peaks near 170 USD in 2007, drops to around 40 USD in 2009, and then rises sharply to a peak of approximately 520 USD in early 2022. A horizontal dashed line is drawn at approximately 660 USD.

Sales, NI & Operating CF, annually

The chart displays the annual financial performance of the company from 2002 to 2021. The left Y-axis represents the absolute values in millions of dollars, ranging from -500 M to 2,500 M. The right Y-axis represents the percentage of sales, ranging from 45% to 67%. The legend indicates that the blue bars represent revenue (Sales), the orange bars represent netIncome, and the green bars represent operatingCashFlow. The chart shows a significant increase in sales over the period, with a notable dip in 2005. Net income and operating cash flow also show a general upward trend, with operating cash flow becoming consistently positive from 2010 onwards.
