Alliance Resource Partners, L.P., a diversified natural resource company, produces and markets coal primarily to utilities and industrial users in the United States. The company operates through four segments: Illinois Basin Coal Operations, Appalachia Coal Operations, Oil & Gas Royalties, and Coal Royalties. It produces a range of thermal and metallurgical coal with sulfur and heat contents. The company operates seven underground mining complexes in Illinois, Indiana, Kentucky, Maryland, Pennsylvania, and West Virginia. In addition, it leases land and operates a coal loading terminal on the Ohio River at Mt. Vernon, Indiana; and buys and resells coal, as well as owns mineral and royalty interests in approximately 1.5 million gross acres of oil and gas producing regions primarily in the Permian, Anadarko, and Williston Basins. Further, the company offers various mining technology products and services, including data network

NACCO Industries, Inc., together with its subsidiaries, engages in the natural resources business. The company operates through three segments: Coal Mining, North American Mining, and Minerals Management. The Coal Mining segment operates surface coal mines under long-term contracts for power generation companies and an activated carbon producer in North Dakota, Texas, Mississippi, and Louisiana in the United States, as well as Navajo Nation in New Mexico. The North American Mining segment provides value-added contract mining and other services for producers of aggregates, lithium, and other minerals; and contract mining services for independently owned mines and quarries in Florida, Texas, Arkansas, and Indiana. The Minerals Management segment is involved in the leasing of its royalty and mineral interests to third party exploration and production companies, and other mining companies, which grants
